Experience

MERN Stack Intern — NovarsisTech Pvt. Ltd. (June 2026 – Present)

- Working as a MERN Stack Intern, building full-stack features using MongoDB, Express.js, React.js and Node.js.
- Developing a shopping/e-commerce website with product listing, cart and order management functionality.
- Building REST APIs for product and cart data, and integrating them with a React-based frontend.
- Collaborating with the team on feature development, debugging and code reviews in a live production environment.

Projects

1. Food Ordering Website [Live Demo](#) | [GitHub Code](#)

- Developed a responsive food ordering website using HTML, CSS and JavaScript.
- Implemented dynamic product listing by fetching JSON data with the Fetch API.
- Built shopping cart functionality with add, remove and quantity update features.
- Added real-time cart total and item count calculation.
- Created an interactive UI with CSS animations and mobile-friendly layouts.

2. Quiz App [Live Demo](#) | [GitHub Code](#)

- Developed an interactive quiz application using HTML, CSS and JavaScript.
- Implemented dynamic question and answer rendering through DOM manipulation.
- Added score calculation, result display and correct/incorrect answer highlighting.
- Designed a responsive, user-friendly interface with clean CSS styling.

3. IT Solution Website (NovarsisTech) [Live Demo](#) | [GitHub Code](#)

- Built a multi-page corporate IT services website using HTML, CSS and JavaScript.
- Created dedicated service pages for Web Development, App Development, UI/UX Design and Cloud Solutions with consistent navigation across the site.
- Developed a client testimonials section and a contact form with input validation.
- Implemented a fully responsive layout with smooth scrolling and hover animations.
